Appointments are necessary for routine surgery.

OFFICE HOURS

Monday–Friday: 8:00am–8:00pm
Saturday–Sunday: 8:00am–1:00pm

LIVE-IN STAFF We have 24hr nursing care provided by our live-in staff, a group of senior vet students.

‘PICK UPS’ AND ‘DROP OFFS’ can be arranged outside office hours. Please call if you require this service.

AFTER HOURS EMERGENCIES PHONE 9798 0785

The Haberfield Veterinary Hospital is a community based fully equipped veterinary hospital, and our primary concern is animal health and welfare. Some of our services include:

- For incapacitated clients, a local **pick up and delivery service and house calls** for simple procedures that do not require hospitalisation.
- Limited **boarding facilities**, especially for animals requiring medical treatment - remember to book early for the busy holiday periods!
- **Contacts for pet minders:** we have numbers for animal minders and sometimes our nurses and vet students can help.
- **Simple pet grooms**, (not a full grooming service) designed especially for feisty furry cats and snappy little dogs that may require sedation.
- A **pensioner discount** of 10% off the cost of consultations and surgery.

PETS ON HOLIDAY!

Tourism NSW has a website which lists pet-friendly destinations for those wishing to take their pets on holidays. The website also gives information about accommodation, beaches, parks and camping areas in the city and surrounding regions where pets are welcome. There are also downloadable maps of Sydney Pooch Trails and tips on travelling. Go to <http://www.visitnsw.com/things-to-do/caravan-and-camping/plan-your-trip/travelling-with-pets>

INFORMATION CORNER

DOES YOUR PET HAVE BAD BREATH?!

Does your dog's or cat's breath smell terrible? Are normal dental diets and pet teeth cleaning products not working?

It may be time for your pet to have a “dental”. This is a simple procedure, done under general anaesthetic and is just like a visit to the dentist. Thoroughly cleaning out their mouth, removing any problem teeth and chipping away tartar build-up – we can help prevent nasty infections that are a major cause of bad smelling breath. You should encourage your pet to eat hard food – dental biscuits and raw bones (chicken and veal) – and consider supplementing their diet with dental care pet foods.

Ask the vet on your next visit what you can do for your pet's dental hygiene!

What happens if my animal goes to the pound?

Any animal that is found must be either returned to the owner or taken to the local council pound or any approved premises and the owner must be notified as soon as possible. A stray or injured animal can be taken to an approved premises such as the local vet. However, if the animal is not claimed within 72 hours, that premises is obliged to hand the animal to the local pound. Unclaimed or surrendered animals can be sold or destroyed by the pound after 14 days but if there is no owner or the owner cannot be identified, then the number of days is reduced to 7.

PUPPY PRE-SCHOOL

Delta Society accredited dog-trainer, **Louise**, is running the puppy pre-school on **Wednesdays from 7.30pm to 8.30pm.**

Join our fun and effective puppy class.

Bookings essential. Please ring **9798 0785** to enrol now.

PROFESSIONAL ENGAGEMENT

- We are committed to the advancement of veterinary science and are proud to be a major supporter of the Australian Companion Animals' Health Foundation (ACAHF). The ACAHF gives grants for research on small animal diseases. This vital organisation has made a significant contribution to the level of research that is carried out into the diseases that affect our pets.
- We support the Australian Veterinary Association's Animal Welfare Trust which provides grants for research into animal welfare.

- We also support Vets Beyond Borders, an important organisation that provides veterinary care and seeks to improve animal welfare in the Asia Pacific region.
- We support the Commonwealth Veterinary Association by hosting veterinarians from developing countries and donating veterinary equipment and instruments to veterinarians in these countries.

UNIVERSITY SUPPORT PRACTICE

- The Haberfield Veterinary Hospital provides the opportunity for Veterinary Science students from the University of Sydney to train with us.

AMERICAN INTERNS

CAPA is an American organisation that arranges for American students to travel abroad for a couple of months as part of their studies back home. We are fortunate to have an excellent relationship with them. It is good to see so many young American students enjoying the opportunity to study and work in Australia. The HVH has been hosting students for some years now and many keep in touch. It's very pleasing to see that a number have become vets.

OUR VETERINARIANS

Dr Tanya Carter Founder of the Haberfield Veterinary Hospital

After graduating in Veterinary Science from the University of Sydney, Tanya was engaged in research on marsupials. She has maintained a keen interest in wildlife disease. Tanya is a

Member by examination of the Australian and New Zealand College of Veterinary Scientists (in Animal Welfare). Tanya is President elect of the Australian Veterinary Association's AVAWE (Australian Veterinarians for Animal Welfare and Ethics), serves on several Animal Ethics Committees and is a veterinary member of the NSW NCAT. Tanya was a recipient of the Belle Bruce Reid medal awarded to Australia's top 100 women vets by the University of Melbourne in 2006. Tanya has a Master of Science in International Animal Welfare Ethics and Law from Edinburgh University. She is a published author on veterinary ethics. She has four adult children.

Dr Helen Gibson has been with us for many years and is an experienced veterinarian. Mother to three beautiful girls, she is also a practising artist. Helen has a degree in Fine Arts as well as her BVSc. (You can see some of Helen's artwork on the walls of our waiting room). Helen works regularly

on Monday night, on Tuesday and Thursday during the day, and on regular Saturdays and Sundays. Helen enjoys surgery and performs our complex surgeries such as cruciate repairs.

Dr Kathy Tang has been with us since she graduated in December 2015. Kathy has been very much a part of the Haberfield Veterinary Hospital ever since she started her university studies. She was one of our resident vet students.

Dr Melody Leung is our casual vet. Originally from Hong Kong, she has worked in small animal medicine in Hong Kong and Sydney since graduating as a vet from the University of Sydney. An animal lover since childhood, Melody has four adopted cats.

Dr Eric Rozitis a vet who lives locally and is now studying human medicine, helps from time to time.

STAFF AND NEWS

OUR NURSES Qualified vet nurse **Rachael** (right) has re-joined the team after bringing William Joseph into the world and being away on maternity leave with him. We welcome her back. She will be working part time for a while. Rachael's vet nurse sister **Sam** is working full time whilst **Francesca** is our casual vet nurse.

RESIDENT VETERINARY STUDENTS Our resident vet students **Joyce**, **Sophie** and **Genevieve** allow us to provide 24 hour nursing care. **Joyce** (below left) was born in Malaysia, moved to Brisbane when 10 years old, Joyce is now in the fourth year of her studies for Bachelor of Veterinary Biology and Doctor of Veterinary Medicine at the University of Sydney. **Sophie** (below centre) is a vet student, originally from Queensland, where she previously completed a degree in journalism and public relations. She has always loved being surrounded by animals, and she hopes to one day work in emergency and critical care. **Genevieve** (below right) is an international student hailing from Boston, USA, and is currently in her second year of the Bachelor of Veterinary Biology and Doctor of Veterinary Medicine degree at the University of Sydney. She is especially interested in wildlife medicine, but loves all animals big and small!

LAW CORNER

I want to bring my pet into my strata title property. What should I do?

The by-laws of each strata scheme usually contain provisions regarding the keeping of animals and can be obtained from the property strata manager. In most cases written approval of the owners corporation will be required before keeping any animal (other than fish in a secure aquarium) will be permitted. Prior written approval from the owners corporation is advisable even when by-laws are silent on the subject.

A letter providing accurate descriptions of the animal, including its breed, size, age, appearance and temperament, should be provided together with details of any obedience training the pet has undergone, as well as confirmation that the pet is registered, micro-chipped, de-sexed, vaccinated and flea and worm treated.

If approval is not given, and seemingly unreasonably withheld, the *Strata Schemes Management Act 1996 (NSW)* sets out avenues of mediation, adjudication and appeal to the Consumer, Trader and Tenancy Tribunal (CTTT) so as to resolve the dispute.

My neighbour has complained about my cat. What can I do?

A cat can be declared a nuisance under the *Companion Animals Act* if it repeatedly damages anything outside the owner's property or repeatedly interferes with the peace, comfort or convenience of a person for example, by being continuously noisy. In these circumstances, Council Offices may issue an Order to the owner to prevent the nuisance behaviour. Such Orders are in force for 6 months, and cannot be appealed or reviewed. Owners must comply with an Order or face a penalty.
